Sculpture is the art of breathing life into the formless, transforming raw stone, metal, or clay into a vessel of human emotion and imagination. Each curve, each chisel mark, tells a story—of strength, grace, struggle, and beauty. It is a timeless dance between vision and material, where the artist's hands reveal what once laid hidden.

In sculpture, we are reminded  
that from the solid and silent  
can emerge a powerful voice  
that speaks across ages.

She has participated in numerous International Sculpture Events, leaving her work in display in other countries such as Qatar, Chile, Egypt, Macedonia, Austria, Italy, Switzerland, France, Germany, Dubai, and Argentina.
